Sale and Purchase Fees

Protecting you legally when purchasing or selling a property is a serious business that requires genuine attention to detail. As we work to protect your legal position, we will also be engaging with other parties including the Land Registry, estate agents, mortgage advisors, and other solicitors.

We will also complete key services including the completion of searches, reviewing the mortgage documents, handling the sellers enquiries and advising on your contract documents. We leave no stone unturned because we have seen any and all eventually in dealing with Gloucestershire properties.

In order to provide this expert advice we do charge a fee illustrated below:

Additional Conveyancing Fees

The following section highlights all the potential additional fees that may be incurred in the course of a transaction. This list can be intimidating to the first time buyer so please seek clarification, but as local people we want to upfront and transparent on the potential fees that could be incurred. Every property is different and some require more work than others and by breaking down our fees we think this is the fairest way to balance our expert advice and your hard earned money.
